English (Professional Proficiency)
Bengali (Native Proficiency)

EXECUTIVE PROFILE

Multi-disciplinary software engineer, game developer, 3D artist, and technology executive based in Khulna, Bangladesh. Founder & COO at Etarnity Global Innovation and Managing Director at Obsession E7. Extensive background architecting high-performance full-stack web applications, native mobile apps in Android Studio, interactive 2D/3D game mechanics in Unity, and stylized Blender 3D visual environments. Proven commercial track record delivering e-commerce platforms and automated payment infrastructures.

EXECUTIVE & PROFESSIONAL EXPERIENCE

Etarnity Global Innovation — Khulna, BD (Jan 2026 – Present)
Founder | Chief Operating Officer (COO) | Chief Financial Officer (CFO) | VP

- Direct organizational operations, executive strategy, and scaling roadmaps as Founder & COO.
- Oversee financial governance, project budgets, and venture resource allocation as CFO.
- Led commercial digital product deliveries, including high-scale client e-commerce architectures.

Obsession E7 (Game Studio) — Khulna, BD (Jan 2026 – Present)
Managing Director (MD) | Senior Game Developer & 3D Artist

- Steer studio roadmap, project milestone scheduling, and interactive game pipelines as MD.
- Architect C# gameplay logic, player physics controllers, animation state loops, and mechanics in Unity.
- Create, texture, and optimize stylized and realistic 3D game models and environments in Blender.

FLAGSHIP PROJECTS & DELIVERABLES

Ahmadiyad (ahmadiyad.com) — Delivered & Live: Full-scale e-commerce platform engineered and handed over by Etarnity. Features instant search, responsive cart drawer, automated checkout, and nationwide logistics.

PayMate (paymate.tech) — Active Venture: Automated instant payment gateway incubated by Etarnity as an upcoming sister concern. Automates 24/7 multi-channel payment verification (bKash, Nagad, Rocket, Upay, Cards).

36+ Confidential Client Projects: Engineered over 36 enterprise portals, internal management platforms, mobile systems, and 3D assets protected under strict Non-Disclosure Agreements (NDAs).
